Sonographer, Physician, Nurse, Scrub Tech (if procedure is in OR)

**Professions that may participate:**

Sonography

**Day(s) of the event:**

Variable

**Hours available to participate:**

Variable

**Research Focus or Population(s) Served:**

Population served is Central Arkansas veterans

**Please describe the activity a student will complete in a few sentences:**

For this activity, a sonography student will work with a physician, nurse, scrub tech (if the procedure is on the OR) to provide patient care during a diagnostic procedure in the vascular lab or the operating room at the VA. The entire team must work together and understand each other's roles in order for the procedure to run smoothly. The sonographer is providing imaging while the nurse monitors the patient and the physician performs the procedure.
